

English

This week, you will be writing your own finding tale.

Plan and draft your story using the example of The Game.

Think about:	Your ideas
Where could the story take place? e.g. a field, a football match, a restaurant, at home - where else?	
What could the object be? e.g. a book, shoes, wand, a phone, a bucket, a pen - what else?	
What happens when the object is found? e.g. events in the book come to life, shoes turn you into different people, wands cast disastrous spells, phones turn people into robots - what else?	

Introduce the main characters (MCs) and where they are	
MCs find something they have not seen before	
The object that has been found causes strange things to happen	
MCs work out how to stop the strange things	
Everything is back to normal	

Edit your work and then send it to your class teacher.

Science

This week you will be learning about the work of Italian physiologist, physician, and professor, Santorio. Santorio devised a clever method which detected changes in a patient's heart rate.

Home Discussion

Can you feel your pulse?

When do you notice your heart rate rising?
