

Toss a Coin Game

Level 3

This is a game for 2 to 4 players. Who will reach Kit and Sam first?

You will need:

- 1 Game Board
- 1 counter per person
- 1 coin

How to play:

- All players start with their counter on 'Start' on the Game Board.
- The first player tosses the coin to see how many spaces they will move along the board.
- If the coin lands on heads, they can move 1 space. If the coin lands on tails, they can move 2 spaces.
- Once the player has landed on a space, they read the word. If they read it correctly, they can jump forward 1 more space. If not, the player stays where they are and other players can help.
- If a player lands on a space with an alien, they must read the nonsense word.
- Players continue taking turns.
- The winner is the first person to get to Kit and Sam!
