

1) Calculate the perimeter of each rectangle.

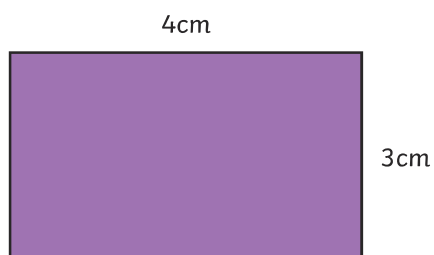

The rectangles are not drawn to scale.

$$\boxed{\text{cm}} + \boxed{\text{cm}} + \boxed{\text{cm}} + \boxed{\text{cm}} = \boxed{\text{cm}}$$

$$\boxed{\text{m}} + \boxed{\text{m}} + \boxed{\text{m}} + \boxed{\text{m}} = \boxed{\text{m}}$$

$$\boxed{\text{cm}} + \boxed{\text{cm}} + \boxed{\text{cm}} + \boxed{\text{cm}} = \boxed{\text{cm}}$$

$$\boxed{\text{m}} + \boxed{\text{m}} + \boxed{\text{m}} + \boxed{\text{m}} = \boxed{\text{m}}$$

2) Add the length and width together and multiply by 2 to calculate the perimeter of each rectangle. Show your working out.
